

Nasdaq Plus

Introducing the Nasdaq Plus suite, built for future-ready market data infrastructure and broader coverage for our clients.

What Is Nasdaq Plus?

Plus represents the next generation of Nasdaq market data delivery, setting the standard for breadth, consistency, and future readiness while maintaining alignment with the evolving market data ecosystem. Nasdaq Data is introducing upgrades to our flagship market data products, Nasdaq Basic and Nasdaq TotalView.

More Data. More Coverage. Same Prices.

- ✓ Broad coverage inclusive of data from Nasdaq, Nasdaq Texas and Nasdaq PSX.
- ✓ Data from the three exchanges are now delivered together in one solution.
- ✓ Expanded trading hour visibility that will continue to grow over time.
- ✓ The same trusted Nasdaq accuracy and reliability.

Tap Into Nasdaq's Plus Products

Nasdaq Last Sale Plus

Real-time intraday last sale data for all securities traded in Nasdaq systems & consolidated volume

Nasdaq Basic Plus

Real-time Best Bid and Offer and Last Sale information

Nasdaq TotalView Plus

Full depth-of-book data, including every single quote and order at every price level in Nasdaq-, NYSE-, NYSE American- and regional-listed securities

Built Around Client Demand & the Evolving Market Ecosystem

Nasdaq Plus is the forward-looking path as Nasdaq expands coverage and moves toward extended global trading hours.

Nasdaq is evolving its market data products to support broader market coverage and the future of extended trading hours. As part of this evolution, Nasdaq is introducing Nasdaq Plus products, enhanced versions of existing products designed to scale as trading hours and the market data ecosystem continue to evolve.

Step Into What's Next for Market Data

Discover how Nasdaq Plus helps you scale with extended trading hours and an evolving global market. Reach out to your Nasdaq Representative for more information.
