

Nasdaq Basic U.S.

Cost-efficient real-time market data for all U.S. exchange-listed securities

For firms looking to save on U.S. data costs, Nasdaq Basic is the leading exchange-provided alternative for U.S. topline trade information, providing quotes and trades for all listed securities (regardless of where they are listed) at a fraction of the cost of consolidated alternatives. This data comes with a high grade of coverage, accuracy, and liquidity — and switching from a current provider is a simple and streamlined process.

Enhance Your Basic Display with NLS Plus

In addition to the real-time data for Nasdaq and the FINRA/Nasdaq TRF that is already included in Basic, NLS Plus offers real-time trade-by-trade data from Nasdaq BXSM (BXSM) and Nasdaq PSXSM (PSXSM) trading venues. The NLS Plus feed also carries consolidated volume on a real-time basis for Nasdaq-listed securities, as well as, NYSE-, NYSE American, NYSE Arca- and other U.S. regional exchange-listed securities. By combining all Nasdaq U.S. markets' last sale data with consolidated volume, NLS Plus provides customers with a comprehensive yet affordable data set to use in display products.
