**Last Update:** Click or tap to enter a date.

The minimum quote sizes for the Nordic market maker commitment in qualifying and non-qualifying subclasses are the same as for the respective market maker commitment in Danish, Norwegian or Swedish qualifying subclasses, regarding the same underlying instrument.

Applicable quote size per underlying Instrument, as determined by the Exchange from time to time, is specified in the respective Appendix A for Classification of Qualifying Subclasses of Danish, Norwegian or Swedish Equity Derivatives.

For Classes S1, S2, S3, D1, N1 and N2, the below tables specify the selected wildcards in accordance with section 1.3 of Appendix B for Market Maker Obligations in Qualifying & Non-Qualifying Subclasses of Nordic Equity Derivatives, and for each wildcard whether it is instead selected as a non-qualifying subclass.

For Classes SX, DX and NX, the tables specify the selected underlying instruments in accordance with section 1.3 of Appendix B for Market Maker Obligations in Qualifying & Non-Qualifying Subclasses of Nordic Equity Derivatives.
