Please note that while you still have access to the existing versions of the above tables, the new tables will be available to test from January 27, 2025 until February 17, 2025. After this date, the new tables can be accessed by default without having to append the &qopts.data\_version=n parameter to your API calls, as shown in the example below:

[https://data.nasdaq.com/api/v3/datatables/NESG/SBBD?api\\_key=YOUR\\_API\\_KEY&qopts.export=true](https://data.nasdaq.com/api/v3/datatables/NESG/SBBD?api_key=YOUR_API_KEY&qopts.export=true)

Previous versions of tables can still be accessed after this date for up to a month by appending the &qopts.data\_version=n parameter to your API calls.

Additionally, the data from the newly added [NESG/SBAR](#), [NESG/SBARH](#), [NESG/SBETH](#), [NESG/SBDGH](#) will also be available for download using the API calls below:

- [https://data.nasdaq.com/api/v3/datatables/NESG/SBAR?api\\_key=YOUR\\_API\\_KEY&qopts.export=true](https://data.nasdaq.com/api/v3/datatables/NESG/SBAR?api_key=YOUR_API_KEY&qopts.export=true)
- [https://data.nasdaq.com/api/v3/datatables/NESG/SBARH?api\\_key=YOUR\\_API\\_KEY&qopts.export=true](https://data.nasdaq.com/api/v3/datatables/NESG/SBARH?api_key=YOUR_API_KEY&qopts.export=true)
- [https://data.nasdaq.com/api/v3/datatables/NESG/SBETH?api\\_key=YOUR\\_API\\_KEY&qopts.export=true](https://data.nasdaq.com/api/v3/datatables/NESG/SBETH?api_key=YOUR_API_KEY&qopts.export=true)

If you rely on column names or column order for your code, you will need to make changes between January 27, 2025 and February 17, 2025.

We will send you a final reminder email in early January to remind you that these changes will go into effect on February 17, 2025.

If you have any questions, please send an email to [nsbn@nasdaq.com](mailto:nsbn@nasdaq.com).
