

Fusion Small Cap

As of 31 July 2024

STRATEGY DESCRIPTION /

The Small Cap Fusion strategy from RiverFront and Nasdaq Dorsey Wright (DWA) seeks to outperform the Russell 2000 index by investing in companies that offer, in our view, attractive valuations, healthy balance sheets defined by low debt-to-equity ratios, and positive price momentum.

The Small Cap Fusion strategy is based off of a domestic equity model using RiverFront's proprietary Value and Quality Factor scores and Nasdaq Dorsey Wright's (DWA) proprietary Momentum Factor scores. The strategy will invest in approximately 75 US stocks selected from the Small Cap universe, including but not limited to the Russell 2000 index, leveraging the experienced thinking from RiverFront and Nasdaq DWA.

Small Cap Fusion can help clients diversify their portfolios by providing access to the fast-growing US small capitalization stock universe through an active investment approach.

OBJECTIVE /

Seeks to achieve long-term capital appreciation with some degree of risk mitigation.
