

# Nasdaq Derivatives Academy: Derivatives, Risk and Clearing

Powered by Financial Training Partner

## Expand your knowledge of derivatives and the related risk and clearing aspects

If you are looking to learn more about derivatives and the inherent risks and rewards associated with the contracts, then this is the course for you. Derivatives, Risk and Clearing is a tailor-made course aimed for risk, clearing and compliance personnel working indirectly with derivatives. Basic conceptual understanding of options and futures is recommended but not required.

## Key Benefits

### E-learning Available 24/7

Enroll in the course and access all the educational content on demand for full flexibility and control over your learning path.

### Learn from the Experts

Our partner instructors are recognized professionals with many years of derivative trading experience, offering comprehensive knowledge and practical understanding.

### Real-Life Examples

In addition to the theoretical, this course offers interactive lectures and real-life case studies that can be applied directly into day-to-day practice.

## How to Enroll

### Step 1

Go to our website and register for the course

### Step 2

Complete the course and pass the examination

### Step 3

Receive your diploma
